DETAILED ACTION

The following is a quotation of the appropriate paragraphs of 35
 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-33 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Allen et al 4,786,692; Scott 4,391,954; Fox et al 4,188,314; and Saito et al 6,281,299.

All the cited prior arts disclose thermoplastic resin compositions comprising structural units as claimed. See the various marked sections of the cited prior arts. It is the Examiner's position that the prior art disclosures have features and characteristics as claimed.

- 3. Claim 31 IS objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

 Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The claim recites "said catalyst". There is no antecedent basis for said recitation in the independent claim.
 - 4. Other references listed on PTO-1449 have been made part of the record.
- 5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to SAMUEL A. ACQUAH whose telephone number is 571-272-1065. The examiner can normally be reached on M-TH, FRIDAYS OFF.
